

Red Rock Global, LLC has been selected along with Trammell Crow Company to advise the Atlanta Public Schools (“APS”) in the advisory and subsequent development/disposition of over 60 surplus properties currently owned by APS. This assignment was secured through a competitive bid process in which Red Rock Global and Trammell Crow Company partnered together, successfully competing against some of Atlanta’s largest real estate service companies.

This assignment begins with a consulting/advisory assignment in which the APS Board of Directors, with the assistance of Red Rock Global and Trammell Crow Company, will ultimately determine the highest and best use of these surplus properties. Upon the Board’s authorization, Red Rock Global and Trammell Crow will execute the lease or disposition of each of the surplus properties in a manner supportive of APS’ financial, educational and community objectives. Our team has already provided recommendations to APS for 11 of the properties and anticipate completing the advisory assignment over the next nine months. It is anticipated that as we provide recommendations on each property, the Board will authorize its disposition or lease so that our team can begin the execution stage of each property.
